

**REMARKS**

Claims 1-17 are now present in this application.

The specification and drawings have been amended.

Reconsideration of the Application, as amended, is respectfully requested.

The disclosure stands objected to for certain informalities. In particular reference numeral "4425" has been used to designate different structures. By the foregoing amendments, the secondary track has now been referred to by reference numeral "4424". Thus, a reference numeral is no longer reused.

In addition, the Examiner has questioned a recitation on page 7. Figure 3 has now been amended to show a secondary track 4424 between the side dead point 4421 and the rear dead point 4423. Thus, the movement of the roller 62 should be clear.

It is respectfully submitted that the objections to the disclosure should now be reconsidered and withdrawn. Applicants acknowledge the Examiner considers claims 1-17 to be allowable. As such, all claims in the instant application should continue to be in condition for allowance. Further reconsideration and an notice of allowance are earnestly solicited.

Because the patents cited by the Examiner have been included merely to show the state of the prior art and have not been utilized to reject the claims, therefore the comments concerning these documents are considered necessary at this time.

In the event there are any outstanding matters remaining in this application, the Examiner is invited to contact the undersigned at (703) 205-8000 in the Washington, D.C. area.

If necessary, the Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 02-2448 for any
